- Tokens allocated for presale will be available for everyone who participate in the presale.
- Tokens allocated for vault will be locked away for safekeeping.
- Tokens allocated for marketing and development will be used for the growth of \$WEWE ecosystem.
- Tokens allocated for airdrops will be used for airdrop raffles across \$WEWE social media.
- Tokens allocated for \$WEWE Team will be distributed to team members of \$WEWE.

Presale?

The \$WEWE memecoin will hold a presale exclusively for early contributors. This presale is an opportunity for contributors to invest in \$WEWE before it hits the market. During the presale, participants can contribute any amount between 0.01 ETH to 5 ETH. All proceeds from the presale will go towards funding the liquidity pool for the \$WEWE token.

After the \$WEWE token launches, presale contributors will be able to claim a percentage of the tokens allocated for presale based on their contribution ratio. This allows presale contributors to benefit from the early investment and support of the \$WEWE token.

Overall, the \$WEWE presale is an exciting opportunity for contributors to get in on the ground floor of a promising memecoin and help support its growth and development.

How to participate in presale?

You can participate in the presale in two different ways:

WAY 1 - Send ETH to wewepresale.eth (0xd1BDC20b56a7bf212EE0c7C4C0F69aE175186df5)

OR

WAY 2 - Participate using the presale smart contract

Note: If you are sending ETH to wewepresale.eth, send ONLY ETH. And do not send from a CEX (binance, coinbase, kucoin, etc).

Airdrops?

W3 Labs has allocated 7.5% of tokens for airdrops, which will be distributed in two tiers. The first tier consists of 5% of tokens, which will be reserved exclusively for WNS (Web3 Name Service) holders. These tokens will be distributed weekly starting from one week post-launch. WNS holders will have the opportunity to receive 1% of tokens every week for the first five weeks after the launch.

The second tier comprises 2.5% of tokens, which will be allocated to social media giveaways. These giveaways will be an exciting opportunity for those who are not yet part of the \$WEWE community to learn more about it and potentially receive tokens. The airdrop giveaways are an excellent way for users to support the project and earn rewards, while also promoting awareness of the \$WEWE token.

Marketing and development?

While \$WEWE is first and foremost a memecoin designed for fun and laughter, that doesn't mean it can't evolve into something more. The tokens allocated for marketing and development are an essential component of this growth, as they will be used to fund the continued development and expansion of the \$WEWE ecosystem.

At W3, we believe that any interesting idea has the potential to become a reality. We're always open to new ideas that can help grow the \$WEWE community. By staying open and adaptable, \$WEWE can continue to evolve and grow alongside the changing cryptocurrency market. We're excited to see what the future holds for \$WEWE.

Staking?

5% of \$WEWE tokens will be allocated for staking, providing users with an exciting opportunity to earn rewards for holding their tokens.

\$WEWE encourages users to become active participants in the network and support the growth of the project. Staking \$WEWE tokens not only provides users with the opportunity to earn rewards but also helps to increase the security and stability of the network. Stay tuned for more information on the staking process and how to participate in this exciting opportunity.

\$WEWE Delegates?

\$WEWE delegates will elevate the \$WEWE community and generate widespread awareness about \$WEWE on the influential platform of Twitter.

A delegates fund equivalent to 5% of the total \$WEWE supply will be allocated and securely locked in a smart contract. Starting from the launch of \$WEWE, 1% of the tokens will be distributed to the delegates on a weekly basis for the first five weeks until all tokens have been dispersed.
